

Instructions For Reporting Scores – First Half

Here is your schedule for the first half of the season; play begins on Saturday, Sept 12th. The second half schedule will be distributed after the Oct 17th break for the matches to be played on Oct 24th through Nov 21st. In order to make adjustments to the seeding and division assignments for the second half, we **must** have complete and up to date standings for each age group. The results of all games **must** be reported by e-mail or by phone to your age-group co-ordinator, and the game card **must** be delivered to your Club Manager.

The **MANDATORY** procedure for reporting your match results is as follows:

1. All coaches must contact their Age-Group Co-ordinator (see the list below) to report the scores of their games (including any no shows) by Sunday evening. **ALL** means **ALL**, both the home and the visiting coach. Please report results by giving the date of the match, age-group, your division, your team name, your score, the team name of your opponent, and their score. Team standings are used at mid-season to determine if a change is needed in division assignment, and later for seeding in the following year. You may report results by phone or by e-mail; the preferred method is by e-mail.
2. The home team coach must also deliver the game card to their Club Manager by the Sunday evening after their game (except when a player has been sent off and the card has been retained by the Referee). The home team's coach is responsible for ensuring that the game card has been correctly and completely filled out before delivering it to their Club Manager. Game cards may be needed as legal documentation at a later date, they **must** be turned in to the Club Manager.

Please be sure to e-mail (or to call in) the results of each of your Saturday games (including any no shows, cancelations or postponed matches). Otherwise you might get a call very late at night, or very early in the morning requesting scores for the previous Saturday's game. The Age Group Coordinators have taken on this task because they care about the kids playing the game, and are willing to take the time to weekly evaluate play balance within their age group. They need your consideration and assistance to accomplish this job so that the players on all teams will have an enjoyable season.

When you report your game scores, feel free to describe or discuss your opinions on the level of play within the division; all information is welcomed. The Age Group Coordinators will need to report standings for their age group to the Statistician and Scheduler following the seeding tournament, before the mid-season re-seeding, and at the end of the season.
